President's Article

By Sharon Crandall, President

It is hard to believe that summer is over and a new season is beginning! As I begin my "new season" serving the dedicated and committed GVFHRA Professionals, one of my goals this year is to "advance the profession and serve the professional" by sharing information, ideas, and initiatives that I receive from National SHRM. Daily I get lots of information on various topics from many different SHRM sources, and I believe

as leaders we need to be current on Human Resources issues that can and will ultimately affect our businesses.

One of the most exciting presidential elections in modern history will be taking place within the next month and a half. While I will not indicate which side I support nor will I get into any political discussions within this article, it is of note that SHRM had a huge presence at both the Democratic and Republican conventions.

In addition to two SHRM television commercials that aired throughout CNN's coverage of the conventions and print ads that appeared in the political newspapers The Hill and Politico, SHRM sponsored a series of events to promote the Society and the HR profession among public policy-makers, journalists, and business and labor leaders. All of these activities were non-partisan, and SHRM did not convey support for any candidate or political party.

Why did SHRM get involved in the conventions? Because to successfully "advance the profession," it's important to build relationships with people who influence government policies, the media, business decisions, and public opinion, regardless of their political leanings. The two national conventions offered unique opportunities for SHRM to reach these important audiences. SHRM's presence at the conventions raised our profession's visibility - especially among candidates of both parties, many of whom we'll need to work with at the local, state and federal levels. If candidates and public officials have some familiarity with SHRM and the role of HR, our members will have an easier time being heard.

I honestly believe that we can make a significant difference in our professional lives and get a seat at that proverbial table if we stretch ourselves beyond our surroundings and become familiar with the business, economic, social, legislative, and political issues affecting our lives, our businesses, and our nation. I want my articles to be a source of information to you as you grow in your professional career.

Please feel free to reach out to me at scrandall@mcbriidshopa.com to let me know what topics you'd like to learn more about, or what issues are concerning you most.
